On Banco Nacional de Mexico were continued practically without ceswhole, it was not at all demoralized and Chi Bao III 3148 4000... seemed to suffer from nothing more than the inevitable sympathetic effect of the liquidation in the one stock named; and no little attention was attracted by the decided stubbornness with which certain stocks stood out against the declining tendency which spread through the general list of securities. It may be said that so far as the expec-

near future to account for the weakness in United States Steel common stock to-day was concerned Wall Street's imagination appears to have been unduly disturbed. The financial district was filled with stories to which publicity was given in great length in most of the afterroon newspapers of an important and largely attended "conference" of steel producers at the office of the United States Steel Corporation, at which it was said the "critical" depression in the steel trade was being discussed in an exceedingly serious fashion; and it was generally asserted in speculative circles that at the close of this meeting an "announcement" of momentous sort would be made with reference to cuts in the prices of the leading iron and steel products. The conference at the headquarters of the FREEMAN, ROLLINS & CO. iron and steel industry is no more grave now than it has been for some time past indulged in and that the sole and only characteristic of such depression in the trade as exists is mere out and out dulness of business. Neither the United States Steel Corporation por its leading independent competitors are at the moment making large contracts for the principal articles of steel production for reasons that ought to be sufficiently known. No doubt the fact that many steel producing establishments are not as strong in money or in resources as is the United States Steel Corporation is inducing them to make concessions on certain lines of goods. But they have not been able to secure any considerable amount of business by these concessions, and it is believed to be the settled policy of the large producers. the United States Steel Corporation and RAILROAD AND OTHER SHARES. the independents alike, not to reduce steel prices, at least until the present tariff discussion has become a thing of the past or until some definite idea can tained as to the reduction in iron and steel duties that is likely to be made at the approaching extra session of Congress. Neither is it believed that it will be the policy of consumers of steel to make definite commitments for the use of the commodity until they for their part can be assured as to the measure of tariff reduction that will probably FREDERIC H. HATCH& CO. take place. It is of course not at all impossible that when the tariff question where. 30 Broad St., New York. is substantially out of the way a reduction. tion in official list prices for steel will occur. Meanwhile, so far as the United States Steel Corporation is concerned, FOR Sale that the fluorial position of the company

ket is a little hard to understand. CLOSING PRICES OF UNITED STATES BONDS.

THURSDAY, Feb. 18.

The one overshadowing feature of the stock market to-day was of course the heavy sales of United States Steel common stock. The stock was relatively weaker than the rest of the market yealerday and the day before, but to-day whith greater vigor than has been seen at any time in recent months. Offerings of the stock started in on a large scale from the very opening of business and were continued practically without continued by the selling pressure in the issue set in its prominent stock started in on a large scale from the very opening of business and were continued practically without conditions in it formed nearly one-quarter of the total volume of the day's trading and a gross decline of over two points occurred in its price. A drop of this sort in such a prominent stock necessarily unsettled the general market to a greater or less extent, although not to the degree that might reasonably enough have been expected under the circumstances. THE BOSTON MARKET.

Boston, Feb. 18.—The weakness in Trinity
was the feature in the copper shares market
to-day, it closing at a lose of 2 points on
moderate sales. East Butte was the leader
in activity and ruled steady at yesterday's
closing price. The remainder of the list
was dull and closed with fractional losses,
Industrials were steady. Rails were firm.

THE COTTON MARKETS. Slightly Lower-Liverpool Better Than Expected-Receipts Light-Spot Interests Bought October.

It had no decided leaning either way. Carpenter, Baggott & Co., George H. McFadden & Bros., Craig & Jenks and other well known cotton merchants and columns on houses are believed to be looking for an advance and to have acted accordingly. Some Liverpool people, some in Memphis, New Orleans and New York incline to the bear side. Neither faction is now aggressive. They are waiting. For what? For developments as to weather, the settlement of the tariff question, the general revival of spot business at the South or anything else that may give the market its much else that may give the market its much needed filip. Texas has recently had more copious rains than have been officially reported from Washington; but the State evidently needs a thorough soaking. Rains were predicted for Texas and the Southwest yesterday. Yesterday the market was really between two fires. Liverpool was better receipts were light and the anot described in the south west in London. 15 62 premium. San Francisco \$1:25 premium. San Francisco \$1:25 premium. yesterday. Yesterday the market was really between two fires. Liverpool was better, receipts were light and the spot demand within twenty-four hours has increased. On the other hand, speculation was dull, trade is still spellbound under the tariff revision. Wanted—The tariff settled and thread of the country given the right of way.

**We think," said Sterrett Tate, "that the outlook is desidedly favorable for much higher prices during the early spring and would favor buying though there might be a temporary decline."

New Orleans—"Old crop firm, looks like too many have seld it. Hedging with new crop months." Memphis sold 2,900 bales, making 10,100 in two days, Houston, 1,071, or 3,100,in two days. A few days ago those two markets looked dead. New York, New Orleans and Galveston are quiet now. A Mississippi planter now here says that the boil weev'll scare throughout Mississippi and Louislana has been greatly exaggerated. Said one broker: "We hear that Southern banks are beginning to show uneasiness over the amount of cotton they are carrying."

Dick Bros. & Co. had numerous reports of rains in Texas lately. Farmers feel encouraged. Shearson bought March. Gwathmey sold July. Schill bought December. Miller sold May. Frederickson cember. Miller sold May. Fredericksot bought May.

Futures declined 1 to 3 points for the day, ending steady with estimated sales of 100,000 bales.
